EDUCATION

Computer Science (Hons)
National University of Singapore
Aug 2014 - Jan 2019

HARD SKILLS

JS - React / Vue / Angular

Java - Spring Boot

Python - Flask / Django

HTML5 / CSS3

REST / SOAP / gRPC

Webpack / Gulp

Jest / Cypress

MongoDB / PostgreSQL

Responsive Design

Performance Optimization

Version Control (Git)

PROFESSIONAL SUMMARY

Detail-oriented, analytical, and self-driven programmer with extensive experience building user-facing applications. Efficient and knowledgeable coder with skills in JavaScript and JavaScript frameworks such as React. Coordinated and collaborative team player with attention to detail and ability to contribute to code base improvement initiatives and UX improvement projects while meeting delivery deadlines.

WORK EXPERIENCE

Jan 2022 - Present

SENIOR SOFTWARE ENGINEER
Refract Technologies

Headed the designing and implementing from ground up, AXIS Control Center, a cross platform software using Web Technologies (react.js, electron.js) to interface with proprietary hardware called AXIS, full-body tracking system built for low-latency gaming, content creation and motion capture.

Spearheaded the development of data tracking software (react.js, electron.js) to aid the R&D team to improve AXIS tracking latency and accuracy.

Developed a management software tool (react.js) for Virtual Taekwondo (VTKD) to allow respective dojangs to manage their athletes for use in actual large-scale tournaments like the Olympics.
